be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of a project which was already well advanced prior to the Act being proclaimed in force, project planning having been completed; and

Having been advised that there has been a long history of planning, public controversy over this undertaking and public concern for the protection of the Twelve Mile Creek Valley; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. Planning for the undertaking was completed prior to the Act coming into force; and
2. The Cabinet has directed that the undertaking be exempted from the provisions of the Act.

This exemption is subject to the following terms and conditions:

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The activity of carrying out construction and maintenance under that portion of the Ministry of Transportation and Communication's program of Remote Airport Construction consisting of the following:

- (a) providing gravel pit access road;
- (b) installing beacons, radios, lighting systems;
- (c) adding, relocating, or renovating buildings on an existing site;
- (d) providing power supplies, including utility lines;
- (e) constructing turning buttons, enlarging aircraft parking aprons;
- (f) installing drainage culverts, ditches;
- (g) installing water and sewage treatment systems;
- (h) providing new taxiways on an existing site;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by the undue delay and expense required to prepare environmental assessments for projects that primarily are of a minor nature and tend to have little or no detrimental effects on the environment; and
2. The public will be interfered with and damaged by undue delay in carrying out of airport programs; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is unlikely to have any significant adverse effects on the environment, and therefore the interference with the Ministry of Transportation and Communication's program as described which would be caused by the application of the Act would be undue;

2. The undertaking is for the safety, comfort and convenience of both users and non-users of the existing Remote Airport systems, and the maintenance of the said system; and
3. Because of the nature of the program, the protection, conservation and wise management of the environment will be sufficiently provided for by the environmental process already followed by the Ministry of Transportation and Communications, as part of its policy;
4. This order is for the purpose of replacing Order MTC D-4 dated 14th day of October, 1976, published in THE ONTARIO GAZETTE, dated 13th day of November, 1976, as the description of the undertaking listed in that order inadvertently omitted certain items which are included in the description of the undertaking attached hereto; and for the purposes of further clarification of other items exempted under the order, certain items have been described more clearly.

This exemption order is subject to the following terms and conditions:

1. Where a portion of this undertaking is part of another undertaking for which an approval is required under the Act then it shall be carried out in accordance with that approval.
2. Where an environmental assessment is submitted for a project associated with this undertaking, the project shall be deemed to be a separate undertaking and not exempt by this order.

This order comes into force and has effect on and after the date upon which it is signed.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking, namely;

The activity of planning under that portion of the Ministry of Transportation and Communications Capital Construction Program for provincial road construction, consisting of those projects, listed in the attached schedule which will be constructed after January 1, 1980 in accordance with Environmental Assessments relating only to their construction, be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of the projects for which a planning study was completed prior to the Act being proclaimed in force; and
2. The public will be interfered with by delay in the carrying out of highway projects to which the Ministry of Transportation and Communications has made a public commitment; and
3. The public will be further interfered with by delay in the carrying out of highway projects for which construction has been completed or substantially completed in one or more related highway projects which were covered in the same planning studies; and
4. Where the project is located within the Parkway Belt West, the public will be interfered with by delay in the carrying out of highway projects, the planning for which as part of the Parkway Belt West hearings, has already been reviewed by interested parties.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act; and

Having been advised that the Ministry of Transportation and Communications has since 1971, routinely applied environmental planning techniques and public participation to its projects at the planning stage; and

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons.

1. The planning of the projects was completed prior to the proclamation of the Act and one or more sections of each project will have been constructed or substantially constructed by the first day of January, 1980. They will have reached such an advanced stage that the interference with the Provincial Road Construction Program of the Ministry of Transportation and Communications with respect to undertakings named on the attached schedule, which would be caused by the application of the Act to the planning phase, including route selection of each project, would be undue; and
2. The protection, conservation and wise management of the environment will be sufficiently provided for with respect to the planning phase of each project, by the detailed environmental planning techniques and the public participation processes already followed by the Ministry of Transportation and Communications as part of its policy; and
3. The purpose of this exemption order is to ensure that when an environmental assessment is being prepared for the design and construction of a provincial road, part of which has been substantially constructed before January 1, 1980, it will not be neces-

sary to address as part of the environmental assessment, an evaluation of the planning phase of the development of the road where the planning phase, which include route selection, was completed before October 20, 1976, the date the Act came into force for such undertakings; and

- 4. The Minister of Transportation and Communications will submit an environmental assessment on the planning phase of those projects for which there have been substantial changes affecting the planning of projects on the attached schedule.

This exemption is subject to the following terms and conditions:

- 1. For those projects on the attached schedule which will not have at least one part substantially completed by January 1, 1980, the Ministry of Transportation and Communications will submit an environmental assessment to cover the planning of that project.
- 2. For those projects which will not be substantially completed by the first day of January

1980, the Ministry of Transportation and Communications shall prepare and submit an environmental assessment covering the design and construction of such projects.

- 3. Where an approval to proceed has been obtained under the Act for an undertaking which includes all or part of a project listed in the schedule, such work or part thereof shall be carried out in accordance with the terms and conditions of the approval.
- 4. Where an Environmental Assessment is submitted for part of a project on the attached schedule, the part of the project for which the Environmental Assessment is submitted shall be deemed to be a separate undertaking from the program and not part of this undertaking.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 29th day of May, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Northern Affairs and the Minister of Transportation and Communications that an undertaking, namely:

The activity of carrying out planning, design and construction under that portion of the Ministry of Transportation and Communications' Remote Airport Construction Program, consisting of those works listed in the attached schedule.

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of projects for which design and construction has been scheduled for completion by January 1, 1980; and
2. The public will be interfered with by delay in the provision of improved year round supply and emergency air service which would be caused by application of the Act.

Having been advised of an existing environmental process implemented by the Ministry of Transportation and Communications with respect to projects commenced before the Act came into force; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The people in the affected communities have received commitments from the Minister of Northern Affairs that the airports would be built and they have already cleared the sites

under Federal grants in preparation for construction in the spring of 1979;

2. Construction can only take place in 1979 if an exemption is issued, in that there is insufficient time to complete the Class Environmental Assessment which will apply to future undertakings of this nature;
3. The subject projects will be substantially completed by January 1, 1980 and delay at this time would cause undue hardship on both the Ministry of Transportation and Communications and more particularly on residents of the communities;
4. The environmental effects of construction of these facilities are minimal due to their small scale and the careful selection of sites;
5. In each case the Band Council of the local community has expressed a strong and continuing desire for the construction of the facility.

This exemption is subject to the following terms and conditions:

1. An Environmental Status Statement shall be prepared and submitted to the Ministry of the Environment prior to commencement of construction of each project, describing the nature of the undertaking, the environmental conditions existing at the proposed site, the condition change which may result from the undertaking, and the measures which the Ministry of Transportation and Communications has utilized to minimize any identified concerns.
2. These Environmental Status Statements shall be kept in the Public Record and made available to anyone wishing to see them.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 29th day of May, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of the Environment that the undertaking, namely:

The activity of construction, operation and maintenance of the Township of Goulbourn—Community of Stittsville Provincial Sewage Works Project #1-0127, designed to collect and transmit sewage, consisting of a 23,650 metre sanitary sewer collection system together with a pumping station and 800 metre forcemain connected to the West Carp Collector Sewer to be operated by the Regional Municipality of Ottawa-Carleton.

be exempted from the application of the Act pursuant to on Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by delaying sewage works for Stittsville that are presently under design and are tied to a tight schedule and precommitted funding; and
2. The public will be interfered with by delaying the construction of facilities upon which the property owners of Stittsville are depending to correct the existing condition of faulty septic tank systems contaminating the local groundwater supply; and
3. The Community of Stittsville and its residents will be interfered with and damaged by the delay in carrying out a commitment made by the then Treasurer of Ontario, to supply sewage services as compensation to the municipality for a loss of assessment which resulted from the annexation of a part of the Township to create a new Town in that area.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force and had reached a sufficiently advanced stage that tenders were called by the municipality which is exempt from the Act, on a portion of the scheme in February of last year, but were subsequently allowed to lapse because the typical homeowner costs were considered excessive, and the Province agreed to a financing scheme which would lower the typical homeowner costs;
2. The recent switch in the financing arrangements under which the works are to be constructed by the Province rather than by the municipality requires that the proposal be approved under *The Environmental Assessment Act* even though Certificates of Approval have been issued for certain portions of the system while the remainder is presently under design and the interference with the proponent which would be caused by the application of the Act would be undue;
3. Since the internal sewer servicing network will be contained within existing road allowances and since there will be no local sewage treatment facility with attendant environmental concerns, there will be no long-term environmental degradation and only minor temporary disruptions during the construction period.

This exemption is subject to the following terms and conditions:

1. The Environmental Assessment Section of the Environmental Approvals Branch be involved at all stages of the planning of any contract that could have environmental implications;
2. That the construction of the undertaking be carried out in accordance with the appropriate guidelines as set forth in the Ministry of the Environment publication, "Environmental Considerations for the Planning and Construction of Provincial Sewer and Water Projects, February 1977".

This order comes into force and effect on and after the date upon which it is signed.

Dated at Toronto, this 18th day of June, 1979.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

Note
The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-grey-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contraindicated.

Hypertension: Fixed Combination Drugs
A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static; it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C reports, Sept. 11, 1972, p. 8 (FDA Cardiovascular Advisory Committee)

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C reports, Sept. 11, 1972, p 8 (FDA Cardiovascular Advisory Committee)

The Environmental Assessment Act, 1975

MNR-16

Exemption Section 30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of drilling holes for core samples in the Kirkland Lake area and on Manitoulin Island, carried out by the Ontario Geological Survey, for the purpose of gathering baseline data about mineral elements in those areas,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised by the Minister of Natural Resources that;

1. The drilling will be carried out in previously disturbed areas, generally away from major

population centres and along existing roads. As a result no new road construction will occur and no seismic activity will be carried out.

2. Due to the nature of the drilling, the holes will be relatively widely spaced and shallow, averaging 30 to 150 feet deep at Kirkland Lake where only the overburden will be sampled. At Manitoulin Island, drilling into bed-rock will occur, but no rock blasting will be necessary at either location.
3. Water, instead of cutting oil, is to be used as the drill lubricant and therefore possible ground water contamination from cutting oil is not a concern.
4. Drilling which is to occur on privately owned land will not be commenced before land-owners' consent is obtained. Provisions have been made for contacting landowners and also some local groups.
5. Ministry of Natural Resources has agreed that there will be no night drilling in populated areas where residents complain that the noise disturbs them.

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown and the public will be interfered with by the delay in implementing an undertaking which is not expected to have significant adverse consequences to the environment.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is not expected to result in any significant adverse environmental effects.
2. Due to the shallowness and small diameter of the drill holes, it is unlikely that interception of sub-surface occurrences of natural gas and oil or aquifers containing saline water, will occur. Only minimal interference to the ground water table or surface water flows is expected.
3. Ministry of the Environment district staff will be making periodic field visits for monitoring purposes to ensure that drilling is being carried out in accordance with the above advice.

This exemption is subject to the following terms and conditions:

1. The appropriate district offices of the Ministry of the Environment shall be notified of all drill hole locations, for monitoring purposes.

2. Prior to the establishment of any base camp, the appropriate district offices of the Ministry of the Environment and other public authorities such as the Northern Ontario Public Health Service, a municipality or Public Health unit, if any, shall be notified in order that the camp may be inspected for sewage facilities, solid waste disposal and water supply and any approvals necessary under *The Environmental Protection Act, 1971* or *The Public Health Act* be obtained.
3. The Ministry of Natural Resources shall ensure at all drill locations that site garbage is removed and that machine oils, fuels and other maintenance fluids are disposed of in an environmentally acceptable manner.

This order comes into force and has effect on and after the day upon which it is signed.

Dated at Toronto, this 25th day of June, 1979.

HARRY PARROTT, D.D.S.,
Minister of the Environment.

The Environmental Assessment Act, 1975

MGS-30

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction of the Ministry of Natural Resources Red Lake District Office on a site near the Town of Red Lake, Township of Dome, District of Kenora, known locally as "Forestry Point",

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

- 1. The Crown will be interfered with and damaged by the undue delay required to prepare an Environmental Assessment for an undertaking that will have no significant adverse effect on the environment, and that is needed by the Ministry of Natural Resources to carry out the consolidation and up-grading of its existing inadequate and separate accommodations into a single district office, and

- 2. The public will be interfered with because the level of service available from the Ministry of Natural Resources, the efficiency with which it is effected and the access to that service is diminished by the inadequacies of the existing accommodations.

Having weighed such damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

- 1. The proposed undertaking replaces facilities which are inadequate in terms of modern standards and are unable to accommodate the consolidation,
- 2. The proposed undertaking will not change the size of the Red Lake District operations. The proposed undertaking involves a 30 acre site which is currently owned by the Government and which has been utilized by the Ministry of Natural Resources for various district operations for over 30 years,
- 3. The Minister of Government Services has assured me that the proposed undertaking is in accordance with both the existing zoning and the proposed Official Plan governing the site. The Minister has further assured me that the existing access roads and electrical services are adequate for the proposed undertaking and the new sewage and water systems which are required will be designed and operated in accordance with the Ministry of the Environment's Guidelines and Criteria,
- 4. The third condition, to which this order has been made subject, will ensure that the design of the proposed undertaking will respect the archaeological resources of the site, and

5. The proposed undertaking will have no significant adverse effect on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be awarded no later than December 31, 1983, and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the project, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current conditions under which the project is proposed is unchanged from the conditions that existed on the date that this exemption order was issued, and
3. That during the design of the proposed undertaking, the Ministry of Government Services consult with the Ministry of Culture and Recreation and develop mutually acceptable procedures for the preservation, protection and/or recording of the archaeological resources at the site, and the Ministry of Government Services file a copy of such procedures with the Environmental Approvals Branch for inclusion in the Public Record, and such procedures will be followed, and
4. Where the undertaking is being carried out in connection with another undertaking for which an environmental assessment has been done and approval to proceed received, the undertaking exempt under this order shall be carried out in accordance with the approval to proceed, and
5. Where an environmental assessment is submitted for this undertaking or a project associated with this undertaking, the undertaking or associated project shall be deemed to be a separate undertaking not exempt by this Order.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 3rd day of July, 1979.

HARRY PARROTT, D.D.S.,
Minister of the Environment.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The acquisition of property in the City of Pembroke, municipally known as 169 William Street, 148 William Street, and 288 Nelson Street, for the possible establishment of an Ontario Government office accommodations building,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue expense required to prepare an Environmental Assessment for an undertaking that will have no adverse effect on the environment and that is needed by the Ministry of Government Services to secure a site suitable for the possible establishment of an Ontario Government office accommodation building.

Having weighed such damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking merely exempts the acquisition of property. Any proposal to change the use being made of this property from the current use, including any proposal to establish an Ontario Government office accommodations building, would be subject to the requirements of the Act, and
2. The Minister of Government Services has an opportunity to purchase the property which might not remain available if the full process indicated in the Environmental Assessment legislation were completed before the property were acquired.

This exemption order is subject to the following terms and conditions:

1. That acquisition of the property be effected no later than December 31, 1981, and
2. This order does not exempt an activity, such as establishing an Ontario Government office accommodations building, which would involve a change in use from that use currently being made of the property proposed to be acquired.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 3rd day of July, 1979.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction of a combined courthouse and registry office on a 1.9 acre site bounded by James, Duke and Church Streets in St. Catharines, legally referred to as Lots 678 and 690 of Corporation Plan #2,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effect on the environment, and that is needed by the Ministries of the Attorney General and Consumer and Commercial Relations to carry out the consolidation of existing inadequate facilities into a single court and registry office, and
2. The public will be interfered with because the level of service available from the Ministries of the Attorney General and Consumer and Commercial Relations, the efficiency with which it is effected and the access to that service is diminished by the inadequacies of the existing accommodation.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking replaces facilities which are inadequate for current or future program requirements and are unable to accommodate a consolidation,
2. The Minister of Government Services has assured me that the zoning at the proposed site is compatible with the proposed undertaking and that adequate municipal services exist at the site to permit the proposed development,
3. Substantial commitment to the project, including preliminary design and land acquisition were effected prior to the enactment of the Act, and
4. The proposed undertaking will have no significant adverse effect on the environment.

This exemption order is subject to the following terms and conditions.

1. That tenders for construction of the facility be awarded not later than December 31, 1981; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the undertaking, advising that that Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situation under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction of the Ministry of Labour Occupational Health Laboratory at Hwy. 401 and Resources Road on the site denoted as Part of Lots 24 and 25, Concession B, fronting the Humber, Borough of Etobicoke,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effect on the environment, and that is needed by the Ministry of Labour to replace the existing inadequate facilities at the Occupational Health Laboratory, 360 Christie Street; and
2. The public will be interfered with in that the level of service available from the Ministry of Labour's Occupational Health program is restricted by the inadequacies of the present accommodations.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking is a replacement for facilities that are inadequate for the current or projected needs and requirements of the occupational health program;
2. The proposed facility will be situated in the area to the south of the existing Ministry of Health Laboratory facilities and as such will be in character with the adjacent development;
3. The Minister of Government Services has assured me that adequate services are available at the site and that the zoning of the site is compatible with the development;
4. The Ministry of Labour has indicated that only very small quantities of potentially dangerous substances are handled at their laboratory and the design and operation of the proposed laboratory will ensure that they are handled and disposed of in a safe and efficient manner;
5. The establishment of the new laboratory will free-up the site of the existing laboratory at 360 Christie Street. This will allow the province to turn the Christie Street property over to the City of Toronto who needs this property as it is part of the land required for the Frankel-Lambert neighborhood development scheme being proposed by the City of Toronto; and
6. The proposed undertaking will have no significant adverse effects on the environment.

This exemption order is subject to the following terms and conditions:

1. That the tenders for construction of the facility be awarded not later than March 31, 1980.

This order comes into force and has effect on and after the date upon which it is signed.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction program associated with the renovation and alteration of the New Liskeard and District Hospital into a students' residence for the New Liskeard College of Agricultural Technology;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effect on the environment, and which is

needed by the Ministry of Agriculture and Food in the implementation of the educational program of the New Liskeard College of Agricultural Technology; and

2. The students attending the New Liskeard College of Agricultural Technology will be interfered with because their accommodation needs exceed the accommodation resources presently available in the surrounding community.

Having weighed such damage or interference with the betterment of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking involves the change in use of a facility from a hospital to a students' residence. This will not have a deleterious effect upon the community since adequate provisions for health services will be provided before renovations are undertaken. The New Liskeard and District Hospital is to be abandoned pursuant to the Ministry of Health's program to establish consolidated health services at Haileybury for the communities of New Liskeard, Haileybury and Cobalt,
2. The Minister of Government Services has assured me that adequate services exist at the site to accommodate the proposed change in use and that the zoning at the site is such that it would permit the intended use, and
3. The proposed undertaking will not have any significant adverse effects on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be awarded not later than December 31, 1983; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the undertaking, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current situation under which the undertaking is proposed is unchanged from the situation that existed on the date that this exemption order was issued.

15. For the purposes of clause *a* of section 14, "contract", "group insurance", "life insurance", and "policy" have the meaning ascribed to them under sections 1 and 145 of *The Insurance Act*.

16. Section 52 of the Act does not apply to the first trade in securities previously acquired under,

The exemption in clause *p* of subsection 1 of section 71 of the Act is unavailable where the solicitations therein referred to are made, in the aggregate, in all jurisdictions including Ontario, to more than fifty prospective purchasers resulting in sales to not more than twenty-five purchasers.

20.—(1) For purposes of this section, "offering memorandum" means a document purporting to describe the business and affairs of the issuer which has been prepared primarily for distribution to and review by prospective investors so as to assist those investors to make an investment decision in respect of securities being sold in a distribution to which section 52 or section 61 of the Act would apply but for the availability of the exemptions contained in one or more of clause *a*, *d* or *p* of subsection 1 of section 71 of the Act but does not include,

FILING REQUIREMENTS

21.—(1) Where any solicitor, auditor, accountant, engineer, appraiser or any other person or company whose profession gives authority to a statement made by him is named as having prepared or certified any part of a prospectus or is named as having prepared or certified a report or valuation used in or in connection with a prospectus, the written consent of the person or company to the inclusion of the report or valuation shall be filed not later than the time the prospectus is filed.

(2) The Director may dispense with the filing of a consent required by subsection 1 if, in his opinion, the filing is impracticable or involves undue hardship.

(3) The consent of the auditor or accountant referred to in subsection 1 shall refer to his report stating the date thereof and the dates of the financial statements on which the reports are made, and shall contain a statement that he has read the prospectus and that the information contained therein, which is derived from the financial statements upon which he reported or which is within his knowledge as a result of his examination, is, in his opinion, presented fairly and is not misleading.

22. Where any change is proposed to be made in a preliminary prospectus or prospectus that in the opinion of the Director materially affects any consent required by section 21 the Director may require that a further consent be filed before an amendment to the preliminary prospectus or prospectus is accepted.

23. There shall be filed at the time of the filing of a preliminary prospectus for a natural resource company or at the time of the filing of a prospectus for a natural resource company under section 61 of the Act, as the case may be, a full and up-to-date report on the property of the natural resource company referred to in paragraph *b* or *c* of item 9 in Form 14 and the development thereof, made by an individual who is a mining engineer, geologist or other qualified individual acceptable to the Director accompanied by a certificate on the report which certificate shall state,

(a) the address and occupation of the individual;

(b) the qualifications of the individual;

(c) whether or not the report is based on personal examination;

(d) the date of any such examination;

(e) where the report is not based on personal examination, the source of the information contained in the report; and

(f) whether or not the individual has, directly or indirectly, received or expects to receive any interest, direct or indirect, in the property of the person or company or any associate or affiliate of the person or company, or beneficially owns, directly or indirectly, any securities of the person or company or any associate or affiliate of the person or company and, if so, the particulars of the interest or beneficial ownership.

CONTENT OF PROSPECTUSES - NON-FINANCIAL MATTERS INTERPRETATION

24.—(1) In sections 25 and 26,

- (a) "trustee" means any person or company named as trustee under the terms of a trust indenture, whether or not the person or company is a trust company authorized to carry on business in Ontario;
- (b) "trust indenture" means any deed, indenture or document, including any supplement or amendment to any deed, indenture or document by the terms of which a person or company issues securities and in which a trustee is named as trustee for the holders of the securities issued thereunder;
- (c) "underwriter" means an underwriter that has signed a certificate included in a prospectus under section 58 of the Act.

(2) For the purposes of the reports required under section 23 and for references to the property of an issuer contained in Form 14, where the report or reference relates to the property of a natural resource company,

- (a) "commercial production" means output from a well of such quantity of crude oil, liquid hydrocarbons, natural gas and natural gas liquids as, having regard to the cost of drilling and production and the price, kind and quality of such production, would justify from a commercial and economic standpoint the drilling of a similar well in the immediate surroundings;
- (b) "crude oil" means a mixture that consists mainly of pentanes and heavier hydrocarbons, which may contain sulphur compounds and that is recoverable at a well from an underground reservoir and that is liquid at the conditions under which its volume is measured or estimated and includes all other liquid hydrocarbons so recoverable except natural gas liquids;
- (c) "indicated ore" has the same meaning as "probable ore";
- (d) "inferred ore" has the same meaning as "possible ore";
- (e) "measured ore" has the same meaning as "proven ore";
- (f) "natural gas" means a mixture, consisting principally of hydrocarbons that may contain non-hydrocarbon gases such as carbon dioxide, hydrogen sulphide, nitrogen or other elements, which mixture is recoverable from an underground reservoir and is in the gaseous phase or in solution with crude oil in the reservoir;
- (g) "natural gas liquids" means the hydrocarbon components propane, butanes, and pentanes

plus, or a combination of them, which hydrocarbon components are subject to recovery from raw gas as liquids by the processes of condensation or absorption, which recovery takes place in field separators, scrubbers, gas processing and reprocessing plants or cycling plants;

- (h) "ore" means a natural aggregate of one or more minerals which, at a specified time and place, may be mined and sold at a profit or from which some part may be profitably separated;
- (i) "possible ore" means that material for which quantitative estimates are based largely on broad knowledge of the geologic character of the deposit and for which there are few, if any, samples or measurements and for which the estimates are based on an assumed continuity or repetition for which there are reasonable geological indications, which indications may include comparison with deposits of similar type and bodies that are completely concealed may be included if there is specific evidence of their presence, and
 - (i) estimates of possible ore shall include a statement of conditions within which the possible material occurs, and
 - (ii) since the arithmetical average of any amount of sampling is not necessarily representative, unless the distribution of values and number of samples are properly taken into account, a statement of how samples were taken shall be given and where mineralization is erratic, the method of treating erratic values, shall be given in the narrative of the report;
- (j) "probable additional reserves" of crude oil, natural gas and natural gas liquids means an estimate of reserves not included in an estimate of the proven reserves which may be recovered from the known reservoir or from that portion underlying the properties, provided,
 - (i) the estimates of probable additional reserves are as realistic as can be determined on the basis of the information available,
 - (ii) the reserve considered probable additional shall be the estimated ultimate recoverable content of the reservoir less the proven reserve, or of that portion underlying the properties, and shall be based on a realistic interpretation of the geological, geophysical and well test data available at the time the estimate is made,
 - (iii) probable additional reserves to be obtained by the application of enhanced re-

covery processes will be the increased recovery over and above that recognized in the proven category which can be realistically estimated to be ultimately economically recovered from the pool or such portions as underlying properties;

(k) "probable ore" means that material for which tonnage and grade are computed partly from specific measurements partly from either or both sample data or production data and partly from projection for a reasonable distance on geologic evidence and for which the sites available for inspection, measurement and sampling are too widely or otherwise inappropriately spaced to outline the material completely or to establish its grade throughout;

(l) "proven developed reserves" means those proven reserves which will be produced from existing wells or facilities;

(m) "proven ore" means that material for which tonnage is computed from dimensions revealed in outcrops or trenches or underground workings or drill holes and for which the grade is computed from the results of adequate sampling and for which the sites for inspection, sampling and measurement are so spaced and the geological character so well defined that the size, shape and mineral content are established and for which the computed tonnage and grade are judged to be accurate within limits which shall be stated and for which it shall be stated whether the tonnage and grade of proven ore or measured ore are *in situ* or extractable, with dilution factors shown and reasons for the use of these dilution factors clearly explained;

(n) "proven reserves underlying a property" means the estimated economically recoverable quantities of crude oil, natural gas and natural gas liquids, including the reserves to be obtained by enhanced recovery processes demonstrated to be successful, from that portion of an area delineated by gas-oil or oil-water or gas-water contacts in drilled wells or which can be reasonably evaluated as economically productive, on the basis of drilling, geological, geophysical and engineering data, but reserves in undrilled prospects cannot be classed as proven reserves;

(o) "proven undeveloped reserves" means proven reserves which are not recoverable from existing wells or facilities or from those zones in existing wells which have been cased off, but which can be recovered through the drilling of additional wells.

25.—(1) Subject to subsection 2, the following general rules apply:

1. A receipt for a prospectus will not be issued if the Director is aware that the issuer is in default in filing any document required to be filed by it under the Act or this Regulation or under the statute under which it is incorporated or organized.
2. Where a receipt for a prospectus is not issued within seventy-five days after the date of a receipt for a preliminary prospectus due to the inaction of the person or company filing such preliminary prospectus, then no final receipt shall be issued for that prospectus.
3. Where an escrow agreement is required for an industrial company before a receipt for a prospectus is issued, the promoters may receive, free of escrow, that number of shares whose value at the offering price is equivalent to the aggregate of the cash and the fair market value of such tangible assets as are acceptable to the Director that they have transferred to the issuer.
4. Where a preliminary prospectus names an underwriter of the issuer who proposes to act as underwriter in Ontario and who is not a registrant or the distribution is to be effected by the issuer and the issuer is not a registrant then the receipt for the preliminary prospectus shall not issue until an application for registration has been received and the receipt for the prospectus shall only be issued concurrently with or after the granting of registration.
5. The receipt for a prospectus relating to securities underwritten on a firm commitment basis, other than securities to be distributed continuously, shall not be issued unless the prospectus indicates that the securities are to be taken up by the underwriter, if at all, on or before a date not later than six weeks after the date of the final receipt.
6. Where there is no trading market for the securities offered, and none is expected to develop as a consequence of the distribution, except for mutual funds, a notice to this effect must be included on the cover page of the prospectus together with a statement that purchasers may not be able to resell securities purchased pursuant to the prospectus.
7. Where a minimum amount of funds are required by an issuer, the receipt for a prospectus relating to securities proposed to be distributed on a best efforts basis, other than securities to be distributed continuously, shall not issue unless the prospectus indicates that the offering may not continue for more than sixty days where the minimum amount of funds are not subscribed within sixty days, without the consent of the Director and those

persons or companies who subscribed within such sixty days.

(2) Where the Director is satisfied that there is sufficient justification, he may permit or require that the provisions of subsection 1 be amended or waived.

(6) A proxy shall provide a means for the security holder to specify that the securities registered in the name of the security holder shall be voted or withheld from voting in respect of the appointment of an auditor or the election of directors.

(7) A proxy or an information circular shall state that the securities represented by the proxy will be voted or withheld from voting in accordance with the instructions of the security holder on any ballot that may be called for and that, if the security holder specifies a choice under subsection 4 or 6, with respect to any matter to be acted upon, the securities shall be voted accordingly.

PART IX

TAKE-OVER BIDS AND ISSUER BIDS

162.—(1) In this Part, “closing price” as to a security in which there is a published market, at any date, means subject to subsection 2, the price per security at which the last trade in that security was effected in the published market on that day, exclusive of,

- (a) odd lot transactions; and
- (b) block transactions and other transactions effected in a manner recognized by the rules of the published market and that differ from the conventional pricing process applicable to that market,

but on a day in which no transactions other than transactions referred to in clauses *a* and *b* occurred, but as to which closing bid and ask prices were published, the closing price is the average of such bid and ask prices.

(2) Where there is more than one published market for a security and one such published market is within Canada, the “closing price” for purposes of subsection 1 shall be determined solely by reference to that market, but if,

- (a) there is more than one published market for that security in Canada; or
- (b) there is no published market for that security in Canada,

the closing price shall be determined solely by reference to the published market within Canada, or that outside Canada, as the case may be, on which the greatest volume of trading in the particular security occurred during the ten business days preceding the date as of which the market price of that security is being determined.

(3) For the purposes of this Regulation and Part XIX of the Act, “market price” of a class of securities on a particular date is an amount 15 per cent in excess of the simple average of the closing price of securities of that class for each day on which there was a closing price and falling not more than ten business days before the relevant date.

(4) Notwithstanding that one or more published markets has existed in respect of a class of securities, for the purpose of determining market price, a published market shall be deemed not to exist in that class of securities at any particular date unless there has been a closing price for securities of that class determined in such market or markets on at least one of the ten business days preceding that date.

163.—(1) In this Part,

(a) "going private transaction" means an amalgamation, arrangement, consolidation or other transaction proposed to be carried out by an insider of an issuer as a consequence of which the interest of the holder of a participating security of the issuer in that security may be terminated without the consent of that holder and without the substitution therefor of an interest of equivalent value in a participating security of the issuer or of a successor to the business of that issuer or of another issuer that controls the issuer;

(b) "participating security" means a security of the issuer that carries the right to participate in earnings to an unlimited degree including a security that by its terms is convertible into or exchangeable for or carries the right to purchase such a security;

(c) "valuation" means a valuation of an issuer or offeree company prepared by a qualified and independent valuer based upon techniques that are appropriate in the circumstances, after considering going concern or liquidation assumptions or both, together with other relevant assumptions that arrives at an opinion as to a value or range of values for the participating securities based upon such analysis without any downward adjustments to reflect the fact the participating securities do not form part of a controlling interest.

(2) Except where the maker of a take-over bid or issuer bid lacks access to information enabling him to comply with this subsection, where it is anticipated in a take-over bid or issuer bid circular that a going private transaction will follow, the circular shall, subject to any variation consented to in writing by the Director, contain a summary of a valuation of the offeree company or of the issuer, as the case may be, together with a statement that a copy of the valuation will be sent upon request to any registered holder of the securities affected for a nominal charge sufficient to cover printing and postage.

(3) A valuation required by subsection 2 shall be filed with the Commission and shall be at a date not more than 120 days prior to the date of the take-over bid or issuer bid and shall contain appropriate adjustments for material intervening events, but if a valuation at a date more than 120 days prior to the date of such bid is available, it shall satisfy the requirements of this section if accompanied by a letter addressed to the holders of the securities affected confirming that the valuer has no reasonable ground to believe that any intervening event has materially affected the value or range of values determined in such valuation or, if there has been such an event, describing it and stating the resultant change in the value or range of values in the valuation.

(4) Upon application by an interested party, where the Director is of the opinion that disclosure of infor-

mation required to be furnished to the holders of participating securities by subsection 2 would cause a detriment to the offeree company, the issuer or the security holders that would outweigh the benefit of the information to the prospective recipients, the Director may permit the omission of the information from such copies of the valuation.

164. A take-over bid circular shall contain the information prescribed in Form 31.

165. A directors' circular shall contain the information prescribed in Form 32.

166. A director's circular and an officer's circular shall contain the information prescribed in Form 33.

168.—(1) The information contained in a circular or notice required under Part XIX of the Act shall be clearly presented and the statements made therein shall be divided into groups according to subject matter and the various groups of statements shall be preceded by appropriate headings.

(7) Each circular or notice required under Part XIX of the Act shall provide full, true and plain disclosure of the matters required to be disclosed therein.

NOTES AND INSTRUCTIONS

Firms reporting on a value (settlement) date basis -

Future purchase and sales commitments must be recorded on this schedule. Outstanding security transactions, not yet due for settlement, made for regular settlement in the normal course of business should be excluded from Part I, Statement A and from this schedule.

Firms reporting on a trade (transaction) date basis -

All purchase and sales commitments must be recorded on Part I, Statement A except for sales with calls and new issues (if the latter have not been processed through the firms records).

Line 1 - Please supply full particulars of the issues, their dates and amounts involved or other pertinent information on Schedule 14A.

Lines 4, 5, 9 and 10 - The details shown on 14B should be the same as those required on Schedule 3 and in addition the commitment price and settlement date are required. Total margin required on lines 4 and 9 is:

- (a) margin calculated on the market values of the commitments, and
- (b) plus the loss or minus the profit based on the difference between the commitment price and the market price at the reporting date. Profits on one issue may be used to reduce requirements on another issue. Insignificant amounts may be shown in total only.

Line 14 - Receivables from members of the banking or selling groups to the extent that they represent the initial draw down of a new issue of securities (not after market trading) may be deducted from the liability to the issuing company which is recorded in the books of the managing underwriter.

Line 16 - The net loss for line 8 items should be reduced by margin provided on the related long positions in inventory.

Supplementary instructions for reporting money market commitments

"Market Price" for money market commitments (fixed-term repurchases, calls, etc.) shall be calculated as follows:

- (a) Fixed date repurchases (no borrower call feature) - the market price is the price determined by applying the current yield for the security to the term of maturity from the repurchase date. This will permit calculation of any profit or loss based on the market conditions at the reporting date. Exposure due to future changes in market conditions is covered by the margin rate.
- (b) Open repurchases (no borrower call feature) - prices are to be determined as of the reporting date or the date the commitment first becomes open, whichever is the later. Market price is to be determined as in (a) and commitment price is to be determined in the same manner using the yield stated in the repurchase commitment.
- (c) Repurchase with borrower call features - the market price is the borrower call price. No margin is required where the total consideration for which the holder can put the security back to the dealer is less than the total consideration for which the dealer may put the security back to the issuer. However, where a holder consideration exceeds dealer consideration (the dealer has a loss) the margin required is the lesser of:
 - (1) the prescribed rate appropriate to the term of the security, and
 - (2) the spread between holder consideration and dealer consideration (the loss) based on the call features subject to a minimum of 1/4 of 1% margin. Such commitments shall be reported in the manner set out under lines 4, 5, 9 and 10 above and shall include details of dealer and borrower calls.

FORM 12

THE SECURITIES ACT, 1978

INFORMATION REQUIRED IN PROSPECTUS OF INDUSTRIAL COMPANY

ITEM 1 - Distribution Spread:

The information called for by the following Table shall be given, in substantially the tabular form indicated, on the first page of the prospectus as to all securities being offered for cash (estimate amounts, if necessary).

TABLE

Column 1		Column 2	Column 3
Price to Public		Underwriting discounts or commissions	Proceeds to issuer or selling security-holder
Per unit
Total

INSTRUCTIONS:

1. Only commissions paid or payable in cash by the issuer or selling securityholder or discounts granted are to be included in the table. Commissions or other consideration paid or payable in cash or otherwise by other persons or companies and consideration other than discounts granted and other than cash paid or payable by the issuer or selling securityholder shall be set out following the table with a reference thereto in the second column of the table. Any finder's fees or similar payments shall be appropriately disclosed.
2. The table should set out separately those securities which are underwritten, those under option and those to be sold on a "best efforts" basis.
3. If the presentation of information in the form contemplated herein results in unnecessary complication, the tabular form may, with the consent of the Director, be varied.

3. If it is impracticable to state the offering price, the method by which it is to be determined shall be explained. In addition, if the securities are to be offered at the market, indicate the market involved and the market price as of the latest practicable date.
4. If any of the securities offered are to be offered for the account of existing security holders, refer on the first page of the prospectus to the information called for by Instruction 4 to Item 25. State the portion of the expenses of distribution to be borne by the selling security holder.
5. If debt securities are to be offered at a premium or a discount, state in bold face type the effective yield if held to maturity.

ITEM 2 - Plan of Distribution:

- (a) If the securities being offered are to be sold through underwriters, give the names of the underwriters. State briefly the nature of the underwriters' obligation to take up and pay for the securities. Indicate the date by which the underwriters are to purchase the securities.
- (b) Outline briefly the plan of distribution of any securities being offered that are to be offered otherwise than through underwriters. Where there is a "best efforts" offering, indicate, where practicable, on the first page the minimum amount, if any, required to be raised, and also indicate, where practicable, the maximum amount that could be raised and the latest date that the offering is to remain open.

INSTRUCTIONS:

1. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take up and pay for all of the securities if any are taken up, or whether the underwriting is merely an agency or "best efforts" arrangement under which the underwriters are required to take up and pay for only such securities as they may sell.
2. Where an underwriting is subject to a "market out" clause, a statement in the prospectus under Plan of Distribution should be made with respect to the "market out" clause.

A sample paragraph is as follows:

Plan of Distribution

"Under an agreement dated 19... between the company and as underwriter, the company has agreed to sell and the underwriter has agreed to purchase on 19 ... the at a price of \$....., payable in cash to the company against delivery. The obligations of the underwriter under the agreement may be terminated at its discretion on the basis of its assessment of the state of the financial markets and may also be terminated upon the occurrence of certain stated events. The underwriter is, however, obligated to take up and pay for all of the if any of the are purchased under the agreement".

ITEM 3 - Market for Securities:

Where no bona fide market exists, or will exist after the distribution, state in bold face type on the first page: "There is no market through which these securities may be sold". Disclose how the price paid to the company was established, whether by negotiation with the underwriter, arbitrarily by the company, or otherwise.

ITEM 4 - Summary of Prospectus:

Give a synopsis near the beginning of the prospectus of that information in the body of the prospectus which in the opinion of the issuer or selling security holder would be most likely to influence the investor's decision to purchase the security.

INSTRUCTION:

1. This summary should highlight in condensed form the information, both favourable and adverse, including risk factors in item 10, particularly pertinent to a decision to purchase the securities offered, including information about both the issuer and the securities.
2. Appropriate cross references may be made to items in the prospectus where information is difficult to summarize accurately, but this shall not detract from the necessity to have the salient points summarized in the summary.

ITEM 5 - Use of Proceeds to Issuer:

- (a) State the estimated net proceeds to be derived by the issuer from the sale of the securities to be offered, the principal purposes for which the net proceeds are intended to be used and the approximate amount intended to be used for each purpose.
- (b) State the particulars of any provisions or arrangements made for holding any part of the net proceeds of the issue in trust or subject to the fulfilment of any conditions.

INSTRUCTIONS:

1. Statements as to the principal purposes to which the proceeds are to be applied are to be reasonably specific although details of the particulars of proposed expenditures are not to be given except as otherwise required hereunder. The phrase "for general corporate purposes" is, in most cases, not sufficient.
2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out, and the order of priority in which they will be applied. However, the statement need not be made if the underwriting arrangements are such that, if any securities are sold, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of the other funds. If any material part of the proceeds is to be used to reduce or retire indebtedness, this item is to be answered as to the use of the proceeds of that indebtedness if the indebtedness was incurred within the two preceding years.
4. If any material amount of the proceeds is to be used directly or indirectly to acquire assets, otherwise than in the ordinary course of business, briefly describe the assets, and, where known, the particulars of the purchase price being paid for or being allocated to the respective categories of assets (including intangible assets) that are being acquired and, where

practicable and meaningful, give the name of the person or company from whom the assets are to be acquired. State the cost of the assets to the issuer and the principle followed in determining the cost. State briefly the nature of the title to or interest in the assets to be acquired by the issuer. If any part of the consideration for the acquisition of any of the assets consists of securities of the issuer, give brief particulars of the designation, number or amount, voting rights (if any) and other appropriate information relating to the class of securities, including particulars of any allotment or issuance of any such securities within the two preceding years.

ITEM 6 - Sales Otherwise than for Cash:

If any of the securities being offered are to be offered otherwise than for cash, state briefly the general purposes of the issue, the basis upon which the securities are to be offered, the amount of compensation paid or payable to any person or company and any other expenses of distribution, and by whom they are to be borne.

INSTRUCTION:

If the offer is to be made pursuant to a plan of acquisition, describe briefly the general effect of the plan and state when it became or is to become operative.

ITEM 7 - Share and Loan Capital Structure:

Furnish in substantially the tabular form indicated, or where appropriate in notes thereto:

- (1) particulars of the share and loan capital of the issuer;
- (2) particulars of the loan capital of each subsidiary of the issuer (other than loan capital owned by the issuer or its wholly-owned subsidiaries) whose financial statements are contained in the prospectus on either a consolidated or individual basis;
- (3) the aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of the minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on a consolidated basis; and

- (4) the aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements.

TABLE

Designation of security	Amount authorized or to be authorized	Amount outstanding as of the date of the most recent balance sheet contained in the prospectus	Amount out-standing as of a specific date within 30 days	Amount to be out-standing if all securities being issued are sold
.....

INSTRUCTIONS:

1. Include all indebtedness for borrowed money as to which a written understanding exists that the indebtedness may extend beyond one year. Do not include other indebtedness classified as current liabilities unless secured.
2. Include in the table the amount of obligations under financial leases capitalized in accordance with generally accepted accounting principles. Set out in a note to the table a cross reference to any note in the financial statements containing information concerning the extent of obligations arising by virtue of other leases on real property.
3. Individual items of indebtedness which are not in excess of 3% of total assets as shown in the balance sheet referred to in Column 3 may be set out in a single aggregate amount under an appropriate caption such as "Sundry Indebtedness"
4. Where practicable, state in general terms the respective priorities of the indebtedness shown in the table.

Commissions or other consideration paid or payable in cash or otherwise by other persons or companies and consideration other than discounts granted and other than cash paid or payable by the issuer or selling securityholder shall be set out following the table with a reference thereto in the second column of the table. Any finder's fees or similar payments shall be appropriately disclosed. Where debt securities are offered, the price to the public, the underwriting discounts and commission and the proceeds to the finance company, except with the consent of the Director, shall be expressed as a percentage.
2. The table should set out separately those securities which are underwritten, those under option and those to be sold on a "best efforts" basis.
3. If the presentation of information in the form contemplated results in unnecessary complication, the tabular form may, with the consent of the Director, be varied.

4. If it is impracticable to state the offering price, the method by which it is to be determined shall be explained. In addition, if the securities are to be offered at the market, indicate the market involved and the market price as of the latest practicable date.
5. If any of the securities offered are to be offered for the account of existing securityholders, refer on the first page of the prospectus to the information called for by Instruction 4 to Item 30. State the portion of the expenses of distribution to be borne by the selling securityholder.
6. If debt securities are to be offered at a premium or a discount, state in bold face type the effective yield if held to maturity.

ITEM 2 - Plan of Distribution:

- (a) If the securities being offered are to be sold through underwriters, give the names of the underwriters. State briefly the nature of the underwriters' obligation to take up and pay for the securities. Indicate the date by which the underwriters are to purchase the securities.
- (b) Outline briefly the plan of distribution of any securities being offered that are to be offered otherwise than through underwriters. Where there is a "best efforts" offering, indicate, where practicable, on the first page the minimum amount, if any, required to be raised, and also indicate, where practicable, the maximum amount that could be raised and the latest date that the offering is to remain open.

Instructions:

1. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take up and pay for all of the securities if any are taken up, or whether the underwriting is merely an agency or "best efforts" arrangement under which the underwriters are required to take up and pay for only such securities as they may sell.
2. Where an underwriting is subject to a "market out" clause, a statement in the prospectus under Plan of Distribution should be made with respect to the "market out" clause.

A sample paragraph is as follows:-

Plan of Distribution

"Under an agreement dated
19... between the company and
as underwriter, the company has agreed to sell and the
underwriter has agreed to purchase on
19... the at a price of \$.....,
payable in cash to the company against delivery. The
obligations of the underwriter under the agreement may
be terminated at its discretion on the basis of its
assessment of the state of the financial markets and
may also be terminated upon the occurrence of certain
stated events. The underwriter is, however, obligated
to take up and pay for all of the
if any of the are purchased under
the agreement".

ITEM 3 - Market for Securities:

Where no bona fide market exists, or will exist after
the distribution, state in bold face type on the first
page: "There is no market through which these securi-
ties may be sold". Disclose how the price paid to the
company was established, whether by negotiation with
the underwriter, arbitrarily by the company, or other-
wise.

ITEM 4 - Summary of Prospectus

Give a synopsis near the beginning of the prospectus
of that information in the body of the prospectus which
in the opinion of the issuer or selling security holder
would be most likely to influence the investor's
decision to purchase the security.

Instruction:

1. This summary should highlight in condensed form the
information, both favourable and adverse, including risk
factors in Item 14, particularly pertinent to a decision
to purchase the securities offered, including information
about both the issuer and the securities.
2. Appropriate cross references may be made to items in the
prospectus where information is difficult to summarize
accurately, but this shall not detract from the necessity
to have the salient points summarized in the summary.

ITEM 5 - Use of Proceeds to Issuer:

- (a) State the estimated net proceeds to be derived by the issuer from the sale of the securities to be offered, the principal purposes for which the net proceeds are intended to be used and the approximate amount intended to be used for each purpose.
- (b) State the particulars of any provisions or arrangements made for holding any part of the net proceeds of the issue in trust or subject to the fulfilment of any conditions.

Instructions:

1. Statements as to the principal purposes to which the proceeds are to be applied are to be reasonably specific although details of the particulars of proposed expenditures are not to be given except as otherwise required hereunder. The phrase "for general corporate purposes" is, in most cases, not sufficient.
2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out, and the order of priority in which they will be applied. However, the statement need not be made if the underwriting arrangements are such that, if any securities are sold, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of the other funds. If any material part of the proceeds is to be used to reduce or retire indebtedness, this item is to be answered as to the use of the proceeds of that indebtedness if the indebtedness was incurred within the two preceding years.

4. If any material amount of the proceeds is to be used directly or indirectly to acquire assets, otherwise than in the ordinary course of business, briefly describe the assets, and, where known, the particulars of the purchase price being paid for or being allocated to the respective categories of assets (including intangible assets) that are being acquired and, where practicable and meaningful, give the name of the person or company from whom the assets are to be acquired. State the cost of the assets to the issuer and the principle followed in determining the cost. State briefly the nature of the title to or interest in the assets to be acquired by the issuer. If any part of the consideration for the acquisition of any of the assets consists of securities of the issuer, give brief particulars of the designation, number or amount, voting rights (if any) and other appropriate information relating to the class of securities, including particulars of any allotment or issuance of any such securities within the two preceding years.

ITEM 6 - Sales Otherwise than for Cash:

If any of the securities being offered are to be offered otherwise than for cash, state briefly the general purposes of the issue, the basis upon which the securities are to be offered, the amount of compensation paid or payable to any person or company and any other expenses of distribution, and by whom they are to be borne.

Instruction:

- (4) the aggregate amount of the minority interest in the preference shares, if any, and the aggregate amount of minority interest in the common shares and surplus of all subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements.
- (5) Disclose any potential dilution of the assets per share and earnings per share in a computation, giving effect to the current issue and to all existing options, warrants and conversion rights in relation to any capital security of the finance company.

1. Include all indebtedness for borrowed money as to which a written understanding exists that the indebtedness may extend beyond one year. Include as an aggregate amount and by classes indebtedness payable within one year from the date of the balance sheet which is evidenced by drafts, bills of exchange, banker's acceptances or promissory notes.

Set out in a note to the table a cross reference to any note in the financial statements containing information concerning the extent of obligations arising by virtue of other leases on real property.
3. Individual items of indebtedness which are not in excess of 3% of total assets as shown in the balance sheet referred to in Column 3 may be set out in a single aggregate amount under an appropriate caption such as "Sundry Indebtedness".
4. Where practicable, state in general terms the respective priorities of the indebtedness shown in the table.
5. Give particulars of the amount, general description of and security for any substantial indebtedness proposed to be created or assumed by the issuer or its subsidiaries, other than indebtedness offered by the prospectus.
6. Set out in a note the amount of contributed surplus and retained earnings as of the date of the most recent balance sheet contained in the prospectus.
7. Set out in a note the number of shares subject to rights, options and warrants.
8. No information need be given under Column 2 with respect to the common and preference shares of subsidiaries.
9. For the purposes of Column 3, in computing the amount of the minority interest in the subsidiaries whose financial statements are contained in the prospectus on an individual basis and not included in the consolidated financial statements, such computation may be based on the financial statements of each such subsidiary contained in the prospectus.

10. In computing the minority interest in the subsidiaries for the purposes of Column 4, the amount set out in Column 3 may be used provided that appropriate adjustment is made to such amount to reflect any change in the percentage of ownership in the capital and surplus of any subsidiary by the minority interest.
11. The thirty-day period referred to in Column 4 is to be calculated within thirty days of the date of the preliminary prospectus or the date of the pro forma prospectus. Where more than thirty days have elapsed from the date of the preliminary or pro forma prospectus, the information included in the prospectus shall, if feasible, be updated to a date within thirty days of the prospectus.
12. The information to be set out in Column 5 may be based upon the information contained in Column 4, adjusted to take into account any amounts set out in Column 4 to be retired out of the proceeds of the issue.
13. Where the amount outstanding as of a specific date within thirty days cannot be precisely calculated, so state; an estimated figure should be used, with a note indicating the basis of calculation and the reasons therefor.
14. In the case of short term notes issued on an agency basis, column 5, may, with the consent of the Director, be omitted.

Any finder's fee or similar payments shall be appropriately disclosed.
2. The table should set out separately those securities which are underwritten, those under option and those to be sold on a "best efforts" basis.
3. If the presentation of information in the form contemplated herein results in unnecessary complication, the tabular form may, with the consent of the Director, be varied.

4. If it is impracticable to state the offering price, the method by which it is to be determined shall be explained. In addition, if the securities are to be offered at the market, indicate the market involved and the market price as of the latest practicable date.

Where there is a "best efforts" offering, indicate, where practicable, on the first page the minimum amount, if any, required to be raised, and also indicate, where practicable, the maximum amount that could be raised and the latest date that the offering is to remain open.

Instructions:

- 1. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take up and pay for all of the securities if any are taken up, or whether the underwriting is merely an agency or "best efforts" arrangement under which the underwriters are required to take up and pay for only such securities as they may sell.
- 2. Describe the options, stating the material provisions including:
 - (i) the designation and number of the securities called for by such options;

ITEM 4 - Summary of Prospectus:

Instructions:

1. This summary should highlight in condensed form the information, both favourable and adverse, including risk factors in item 10, particularly pertinent to a decision to purchase the securities offered, including information about both the issuer and the securities.
2. Appropriate cross references may be made to items in the prospectus where information is difficult to summarize accurately, but this shall not detract from the necessity to have the salient points summarized in the summary.

ITEM 5 - Use of Proceeds to Issuer:

- (a) State the estimated net proceeds to be derived by the issuer from the sale of the securities to be offered, the principal purposes for which the net proceeds are intended to be used and the approximate amount intended to be used for each purpose.
- (b) State the particulars of any provisions or arrangements made for holding any part of the net proceeds of the issue in trust or subject to the fulfilment of any conditions.

Instructions:

1. Statements as to the principal purposes to which the proceeds are to be applied are to be reasonably specific although details of the particulars of proposed expenditures are not to be given except as otherwise required hereunder. The phrase "for general corporate purposes" is, in most cases, not sufficient. Specify whether unallocated funds will be placed in a trust or escrow account, invested or added to the working capital of the company. Give details of the arrangements made for, and the persons responsible for the supervision of the trust or escrow account or the investments of unallocated funds and the investment policy to be followed. Where unallocated funds are to be added to working capital, indicate the reason for doing so.
2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out and the order of priority in which they will be applied. However, the statement need not be made if the underwriting arrangements are such that, if any securities are sold, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of the other funds. - (B) the transaction is in the ordinary course of business of the issuer.

5. Information shall be furnished in answer to this item with respect to transactions not excluded above that involve remuneration, directly or indirectly, to any of the specified persons or companies for services in any capacity unless the interest of the person or company arises solely from the beneficial ownership, direct or indirect, of less than 10 per cent of any class of voting securities of another company furnishing the services to the issuer or its subsidiaries.

2. Set out a complete list of all material contracts, indicating those which are disclosed elsewhere in the prospectus and provide particulars with respect to those material contracts about which particulars are not given elsewhere in the prospectus. This item does not require disclosure of contracts entered into in the ordinary course of business of the issuer.
3. Particulars of contracts should include the dates of, parties to, consideration and general nature of the contracts, succinctly described.
4. Particulars of contracts need not be disclosed, or copies of such contracts made available for inspection, if the Director determines that such disclosure or making-available would impair the value of the contract and would not be necessary for the protection of investors.

the "Vendors" of the
First Part) and

(hereinafter called

Second Part) and

(hereinafter called
the "Issuer" of
the Third Part)

WHEREAS the Vendors or predecessors in title of one or more of them and the Issuer entered into an agreement dated the.....day of.....A.D. 19....., whereby the Vendors or such predecessors agreed to sell certain property to the Issuer, the consideration for such property being at least in part the issuance of securities by the Issuer or the transfer of securities of the Issuer to the Vendors or such predecessors, the property and the number of securities and the names of the Vendors presently owning or to receive such securities, being respectively and more particularly described in Schedule "A" attached to and forming part of this agreement;

AND WHEREAS in furtherance of complying with the requirements of The Securities Act, 1978, the Vendors are desirous of depositing in escrow certain securities in the Issuer owned or to be received by them;

AND WHEREAS the Trustee has agreed to undertake and perform its duties according to the terms and conditions hereof;

NOW THEREFORE this agreement witnesseth that in consideration of the aforesaid agreements and of the sum of one dollar (\$1.00) now paid by the parties hereto, each to the other (receipt of which sum the parties do hereby respectively acknowledge each to the other), the Vendors jointly and severally covenant and agree with the Issuer and with the Trustee and the Issuer and the Trustee covenant and agree each with the other and with the Vendors jointly and severally as follows:

- (1) Each of the Vendors hereby places and deposits in escrow those of his securities of the issuer which are represented by the certificates described or referred to in Schedule "A" hereto, with the Trustee and hereby undertakes and agrees forthwith to deliver those certificates (including any replacement securities or certificates if and when such are issued or allotted) to the Trustee for deposit in escrow.
- (2) The parties hereby agree that the securities and the beneficial ownership of or any interest in them and the certificates representing them (including any replacement securities or certificates) shall not be sold, assigned, hypothecated, alienated, released from escrow, transferred within escrow or otherwise in any manner dealt with, without express consent, order or direction in writing of the Ontario Securities Commission (hereinafter referred to as the "Commission") being first had and obtained or except as may be required by reason of the death or bankruptcy of any Vendor, in which cases the Trustee shall hold the said certificates, subject to this agreement, for whatever person, firm or corporation shall be legally entitled to be or become the registered owner thereof.
- (3) The Vendors hereby direct the Trustee to retain their respective securities and the certificates (including any replacement securities or certificates) representing the same and not to do or cause anything to be done to release the same from escrow or to allow any transfer, hypothecation or alienation thereof except with and as directed by the written consent, order or direction of the Commission. The Trustee hereby accepts the responsibilities placed on it hereby and agrees to perform the same in accordance with the terms hereof and the written consent, orders or directions of the Commission.
- (4) If during the period in which any of the said securities are retained in escrow pursuant hereto, any dividend is received by the Trustee in respect of the escrowed securities, any such dividend shall be forthwith paid or transferred to the respective registered owner entitled thereto.
- (5) All voting rights attached to the escrowed securities shall at all times be exercised by the respective registered owners thereof.
- (6) The Vendors hereby jointly and severally agree to and do hereby release and indemnify and save harmless the Trustee from and against all claims, suits, demands, costs, damages and expenses which may be occasioned by reason of the Trustee's compliance in good faith with the terms hereof.

- (7) The Issuer hereby acknowledges the terms and conditions of this agreement and agrees to take all reasonable steps to facilitate its performance.
- (8) The written consent, order or direction of the Commission as to a release from escrow of all or part of the said securities, shall terminate this agreement only in respect to those securities so released.
- (9) (a) In the event that the Issuer has lost, alienated, or has not obtained a good or marketable title to, or that the Issuer has abandoned or discontinued development of any or all of the aforesaid property, or that any or all of the said property which was or formed part of the consideration for which the aforesaid securities were issued, has become of little or no value, the Issuer may and shall declare any such event or circumstance giving particulars thereof to the Commission and the Vendors by way of a resolution of directors and provide a certified copy of the resolution to the Commission and the Vendors.
- (b) The Vendors jointly and severally agree with the Issuer and the Trustee that in the event of any such loss, alienation, failure to acquire such title or of such abandonment or discontinuance of development or diminution of value, all of the securities issued in consideration of such property and then held in escrow hereunder shall save as hereinafter in this paragraph 9(b) provided, be tendered to the Issuer by way of gift or for cancellation and shall remain in escrow subject to the terms and conditions of this agreement until the securities are fully effectually cancelled or otherwise transferred for the benefit of the Issuer. Notwithstanding the foregoing, where in the event of alienation there is evidence satisfactory to the Commission of an increase in the value of such property or where only part of the property is involved, the Commission, after affording the Issuer and the Vendors an opportunity to be heard, may determine in its sole discretion by order or direction to the Trustee, the number of securities, if any, to be tendered to the Issuer by way of gift or for cancellation and such determinations and declarations shall be final and binding upon each of the parties hereto.
- (c) Each of the Vendors undertakes and agrees to vote and cause to be voted their respective securities in a manner consistent with the terms, conditions and intent of this agreement in relation to the aforesaid gifting back of securities.

- (d) Where the securities issued in consideration of such property cannot be cancelled, they shall be held for the benefit of the Issuer by the Trustee and remain in escrow subject to the terms and conditions of this agreement, but they shall not be voted and any dividends shall be donated back for the benefit of the Issuer.
- (10) If the Trustee should wish to resign, it shall give at least six months notice to the Issuer, who may, with the written consent of the Commission, by writing appoint another Trustee in its place and such appointment shall be binding on the Vendors and the new Trustee shall assume and be bound by the obligations of the Trustee hereunder.
- (11) This agreement may be executed in several parts in the same form and such parts as so executed shall together form one original agreement, and such parts if more than one shall be read together and construed as if all the signing parties hereto had executed one copy of this agreement.
- (12) Wherever the singular or masculine are used throughout this agreement, the same shall be construed as being the plural or feminine or neuter where the context so requires.
- (13) This agreement shall enure to the benefit of and be binding upon the parties hereto, their and each of their heirs, executors, administrators successors and assigns.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

FORM 29

Finance Company Questionnaire and Financial Report

Name of Finance Company

Date of Incorporation and Jurisdiction
Under Which Incorporated or Continued

For the Year Ended

PART I

(1) Introduction

This report is to be prepared by finance companies as defined in the Regulation. The report is complete only when accompanied by a full set of audited financial statements.

The data in the report pertain, unless otherwise indicated, to the consolidated operations of the finance company and its subsidiaries.

The evaluation of a company cannot be complete without an evaluation of the capabilities and performance of its management. Readers should recognize that this report is intended for use primarily as a starting point in the process of evaluating the finance company.

(2) Organization of the Report

Part I Introduction and organization of the report.

Part II Statement of policy with respect to nine important corporate policies, knowledge of which will assist in the evaluation of the data contained in other parts. In addition, this part will provide some relevant general information about the company.

Part III Eleven schedules of detailed data with respect to operations for the year, which, when read in comparison with previous years' reports, produce a picture of the company's actions through time.

Part IV Three sections, one each for consumer loans, sales finance wholesale and capital loans, and mortgage loan companies.

PART II

For the purposes of this report,

- (a) (i) "dealer" means a person or company who sells products pursuant to security agreements which in turn are sold or assigned to a finance company;
- (ii) "delinquent account" means an account on which an instalment or part thereof is past due for a specified period of time;
- (iii) "income tax 'rate'" means taxes as a percentage of before tax earnings;
- (iv) "renewal contract" means a contract replacing an original contract and entered into to reduce the amount of the monthly instalment from the amount required under the original contract;
- (b) information should, to the extent applicable, be stated separately for each class of receivable.

ITEM 1. STATEMENTS OF OPERATIONAL POLICY:

Attach a statement which describes the policies, methods of treatment, and statistical significance of each of the following areas. While the financial statements of the finance company will include a number of the following items, the purpose of this statement is to provide more detailed data than would usually be shown therein.

- (a) Renewals - The policies and procedures regarding renewals including a statement as to whether additional credit investigation of the customer has been made and, where applicable, as to whether the approval of the dealer has been obtained.
- (b) Extensions - The policies and procedures regarding extensions including a statement as to whether an extension is granted only when
 - (i) circumstances warrant the postponement of all or a part of a current instalment,
 - (ii) the dealer has approved, if applicable, and
 - (iii) an extension fee has been paid.
- (c) Delinquencies - The statement should indicate, for each class of business,
 - (i) whether delinquency is measured contractually, or on the basis of recency of payment,
 - (ii) the period of time the account needs to be past due before being classified as a delinquent account, and
 - (iii) whether any partial payment returns a delinquent account to a current status, and if so, describe the type of payment.

- (d) Doubtful receivables.
- (e) Write-offs - The statement should include an explanation of any automatic write-off policy on delinquencies and the accounting treatment on write-offs including the rebating method.
- (f) Amortization of intangible assets - The policies and methods regarding the treatment of intangible assets - e.g. start-up expenses of new branches, debt discount and expense, and goodwill - including an explanation of the basis of valuation, method of amortization, and total amortized to date.
- (g) Income taxes - If the income tax rate is significantly less than the maximum applicable tax rate for Canadian corporations, state the reason for the difference.
- (h) Non-recurring items, and
- (i) Income and Deferred Income - Include full descriptions and examples, of all methods of taking up income (derived from financing operations) used by the finance company or any of its subsidiaries. The statement should clearly illustrate the method of accounting for deferred income and reserves representing

deferred income. If any initial charges are taken (e.g. acquisition charge) state the percentage that each of these charges bears to the total finance charge.

For purposes of comparison, a description of the DIRECT RATIO METHOD of taking up income follows:

Direct Ratio Method

The direct ratio method (also known as the "rule of 78ths" and the "sum-of-the-digits" methods) is a method by which the unearned or deferred finance charge can be taken into earned income. It is a method by which the income earned during the period may be matched with expenses incurred during the same period.

In practice, modifications of the direct ratio method are commonly employed. Some modifications are applied to some classes of business while other modifications are applied to other classes of business, within the same company. Still more modifications other than those now in use, might be expected in years to come.

The number of modifications and their development suggests that no one method is "right" for all classes of business at all times. Therefore, the direct ratio method is suggested here as a common point of comparison only and its use as such is not intended to imply a recommendation of the method for any purpose other than as a point of comparison.

Example of the Direct Ratio Method

As applied to a 12-month contract acquired on the first day of the month:

Total initial finance charge	\$100.00
Less: acquisition charge	0.00
dealer reserve	0.00
other expense items	0.00
	<hr/>
Net initial finance charge	\$100.00
	<hr/>

Amount of finance charge taken up -	
in the 1st month (month of acquisition)	\$ 15.39 (12/78 x 100)
in the 2nd month	14.10 (11/78 x 100)
in the 3rd month	12.82 (10/78 x 100)
in the 4th month	11.54 (9/78 x 100)
in the 5th month	10.26 (8/78 x 100)
in the 6th month	8.97 (7/78 x 100)
in the 7th month	7.69 (6/78 x 100)
in the 8th month	6.41 (5/78 x 100)
in the 9th month	5.13 (4/78 x 100)
in the 10th month	3.85 (3/78 x 100)
in the 11th month	2.56 (2/78 x 100)
in the 12th month	<hr/> 1.28 (1/78 x 100)
Total	\$100.00

The example is based upon a total finance charge of \$100.00.

Assuming that expenses incurred for acquiring the contract, etc. are not charged, the total unearned income to be taken up periodically is also \$100.00. Therefore, on the basis of a 12-month contract acquired on the first day of the month, the amounts of income taken up each month in the example closely approximate the related percentage figures when the direct ratio method is applied without any modifications.

Instruction 8 elaborates upon the nature of ownership.
5. Under "Designation of Security", identify each class of security beneficially owned or over which control or direction may be exercised. For example, use descriptions such as "Common shares", "First preference shares" or "9% Debentures due 1995".

Those reporting insider transactions should be guided by the following items in completing this report:

- (a) The Commission staff are not permitted to correct, delete or add to a report. Therefore, ALL paragraphs must be completed.
- (b) One should make certain that the amounts are consistent with the information given in previous reports.
- (c) Where a report is intended to show directly held securities being disposed of in such a manner that the position becomes indirect, or vice versa, it is essential that both sides of the transaction are reported. For example, if Mr. Jones wishes to transfer 100 directly owned shares in Company "A" to a company controlled by Mr. Jones, named Company "B", it should be shown both as a sale by Mr. Jones and as a purchase by Company "B" under Item 7. We suggest that Item 9 be utilized to draw attention to these circumstances.
- (d) Reporters are reminded that "stock splits" constitute a change in their holdings.
- (e) Where attachments are used to record detailed transactions these should be totalled and the totals carried forward to Item 7 on the Form.
- (f) When reporting indirect holdings always refer to the companies involved by full name. One should not, for example, use such identification as Company "A".
- (g) Reporters are reminded that purchase warrants, puts, calls, or other transferable options are considered securities of a reporting issuer and must be reported.
